

Royal Breakfast

Royal Breakfast

A healthy and nutritious gastronomic experience offering fresh local ingredients of the highest quality — an original and visually attractive breakfast. Royal Hideaway Corales Resort likes to take good care of its guests from the very first minute of the day.

We select our ingredients with the aim of offering our guests superb quality. We provide an excellent and varied range of fresh, organic and seasonal ingredients, always favouring the zero-food-miles option. A first-class breakfast needs to be, above all else, delicious.

We want our guests to discover Tenerife and the Canary Islands through our cuisine and we want them to enjoy a breakfast featuring typical ingredients that represent our cultural values.

We also take care over the aesthetic details, so that our breakfast has maximum visual appeal. We provide our guests with simple but concise labelling, offering detailed and elegant signposting. We arrange our foods according to their nature and in plentiful quantities. We present our foods on eye-catching tableware, as we want to offer a breakfast that is not only good for you, but also looks appealing.

Royal Breakfast

The design of the buffet enables us to help our customers to navigate the space. Separating the ingredients into families makes it easier to highlight the value of what we offer. In the same way, we differentiate between and highlight local and artisan products.
